### Labor Certification Posting Notice - #1

**Position Title:** Lecturer (Civil, Construction and Environmental Engineering)

**Position Description:**
Teach engineering core courses at the undergraduate level. Use an appropriate mix of traditional and innovative approaches, including asynchronous learning, to deliver the fundamentals of civil engineering and engineering mechanics. Teach courses at the undergraduate level, advise undergraduate students, participate in technical committees and outreach activities, and exhibit a commitment to inclusivity and diversity. Contribute to the mission of the department. Interact collegially and maintain the highest standards of integrity and ethical behavior. Required: B.S. degree in Civil Engineering or a closely related field plus six years of professional experience; or an M.S. in Civil Engineering or a closely related field plus four years of professional experience; or a Ph.D. in Civil Engineering or a closely related field. Strong communication skills. Preferred qualifications include professional engineering license (PE) or the ability to become licensed (PE), industry experience in a related field or instructional experience in appropriate technical topics, evidence of strong communication skills, and evidence of a commitment to diversity/inclusivity. Chronicle of Higher Education Vitae, November 15, 2018, through December 14, 2018
